Introduction to Generative AI for Software Development

Generative AI: Prompt Engineering Basics

Advanced Prompt Engineering for Everyone

Generative AI with Large Language Models

Nagasharath D R

Senior Engineer at Coforge.

Bengaluru, Karnataka, India

Summary

I am a results-driven Senior Full Stack Developer with 10+ years of professional experience in Microsoft technologies, specializing in designing, developing, and maintaining scalable, secure, and high-performance enterprise applications.My technical expertise spans C#, .NET, ASP.NET Core, Entity Framework Core, SQL Server, Angular, TypeScript, and Microsoft Azure.Throughout my career, I have gained experience across the full software development lifecycle, including requirement analysis, application design, development, database optimization, API integration, debugging, testing, deployment, and production support.Technical Expertise• Backend Development: C#, .NET, ASP.NET Core, RESTful APIs, Entity Framework Core, LINQ, asynchronous programming, and dependency injection.• Frontend Development: Angular, TypeScript, JavaScript, HTML5, CSS3, and responsive user interface development.• Database Development: Microsoft SQL Server, T-SQL, stored procedures, query optimization, indexing, data modeling, and performance tuning.• Cloud Technologies: Microsoft Azure, Azure App Service, Azure Functions, Azure Service Bus, Azure Key Vault, Managed Identity, and cloud-native application development.• DevOps and CI/CD: Azure DevOps, build and release pipelines, Git, Docker, automated deployments, and continuous integration practices.• Software Engineering: Object-oriented programming, SOLID principles, design patterns, clean architecture, unit testing, troubleshooting, and application performance optimization.I am passionate about building reliable and scalable applications, identifying performance bottlenecks and simplifying complex technical challenges.I am continuously expanding my knowledge of cloud-native architecture, automation, and AI-assisted software development. I am particularly interested in exploring how AI and intelligent integrations can improve developer productivity, automate workflows, and enhance application capabilities.My professional goal is to continue growing toward technical leadership opportunities where I can combine hands-on development expertise with system design, architecture, mentoring,

and delivery ownership.I am always interested in connecting with technology professionals, exchanging ideas, exploring innovative solutions, and contributing to challenging software engineering initiatives.Core Interests: .NET Full Stack Development | C# | ASP.NET Core | Angular | SQL Server | Microsoft Azure | Cloud-Native Architecture | Microservices | DevOps | AI Integration | Technical Leadership

Experience

Coforge
Senior Engineer
June 2026 - Present (5 months)
Remote

Encora Inc.
Senior Software Engineer
September 2021 - June 2026 (4 years 10 months)
Bengaluru, Karnataka, India

FIS
Senior Product Developer
October 2019 - September 2021 (2 years)

Mindtree
3 years 9 months

Software Developer
February 2016 - October 2019 (3 years 9 months)
Bengaluru, Karnataka, India

.net developer

Senior Software Engineer
February 2016 - October 2019 (3 years 9 months)
Bengaluru, Karnataka, India

Education

Acharya Patasala Rural College Of Engineering A. P. S
· (2011 - 2015)
